32.

- A stakeholder map helps learners identify who is affected, understand different perspectives, and decide who should be consulted.
- A consultation question template helps learners build focused questions and guide respectful conversations.
- An authority register helps learners understand responsibilities and navigate who can make decisions or approve changes.
- A feedback tracker helps learners organize concerns, identify priorities, and plan follow-up actions.

33.

1. What strengths and skills do I bring that can help this team succeed?
2. How have my experiences shaped the perspective I bring to this work?
3. What past accomplishment shows the value I can contribute?
